1. Protection cover – 2. Inner sack – 3. Outer sack

Care instructions and materials

The outer shell is water repellent and consists of 70% polyamide and 30% polyurethane, it is machine washable at 40°C.

The inner bag is nylon and need only be rinsed in fresh water and then air-dried. Drying time is approximately 3-4 hours at 20-30°C.

Shake the beads down in the narrow side of the bag and grab the inner bag.

Turn the bag upside down and "pour" out the inner bag.
