

freebag®

the personal comfort zone

Simple, adaptable
and superlightweight,
the freebag® ensures
maximum comfort

- A revolutionary new concept
for comfort in boats

Forget heavy cushions and pillows,
beach-matresses and collapsable
stools, freebag® is all of the above
and more.

*The Freebag insulates and
doesn't get soaking wet!
Fantastic!*
Crew, S/Y OSOSO
circumnavigator

▼ What it is

In essence, an outer shell of high quality
breathable material, an inner bag with poly-
propylene beads lets you sit and lie down in
comfort in places you never thought possible.

The patented design and the advanced polypropylene
bead technology gives the freebag® its unique qualities,
allowing the yachtsman to be supported comfortably
in situations ranging from relaxation on the deck to
active sailing in rough weather.

▲ Where to use

- ▶ Use it as a stool
- ▶ Use it to always sit comfortably
when the boat is heeling.
- ▶ Use it to lie down on any surface.
- ▶ Use it as a carrying bag.
- ▶ Insulates, keeps you warm at night
or in cold climates.
- ▶ Keeps drinks etc cold.

*They are invaluable!
We wouldn't make it
without the freebags!*
Skipper, S/Y Anna Martine
circumnavigator

*We have the best comfort
onboard crossing the Indian Ocean
Thanks to Freebag!*
Skipper S/Y Topaz
circumnavigator

freebag®

the personal comfort zone

- A revolutionary new concept for comfort in boats

▼ How to use

- ▶ The technique is to spread and place the beads according to the way you want to use it.
- ▶ To lie down pat the Freebag lightly to distribute the beads evenly.
- ▶ To use as stool lift the bag up in the narrow end and let the beads collect in the broader end.

The freebag® is ideal for all climates and all kinds of temperatures.

The challenge has been to find the optimal design solutions, and the highest quality materials for use in boats, where demands to size, durability, weight and flexibility are significant.

the personal comfort zone

The freebag® keeps it cool when hot, hot when cool.

▲ Product

Freebag : expression from jazz; means extreme improvisation

▲ Product info

freebag® consists of an outer shell made of breathable coated textiles for offshore use, and an inner bag made of nylon filled with polypropylene. The polypropylene filling in the inner bag will slowly compress over time. The rate of compression will depend on how much, and in what ways the freebag® is used. To ensure optimal functionality over time the inner bag should be replaced. A compression of 15% to 20% will not alter the freebag® functionality. To order new inner bag contact retailer or www.freebag.com

UV radiation fades color and destroys fabrics. To extend the life of your freebag® rinse with fresh water and store in the shade when not in use. Outer shell machine washable. Inner bag rinse with fresh water.

Weight only 1.9 lb. (860 gr.). Measurements 50x35x18cm (20x14x7inches).

! WARNING: The freebag® is not a life saving device!

freebag.com

freebag® is developed by experienced yachtsmen for increased comfort and endurance on long voyages, ocean races and in rough seas.
